

## How to Use Vick's VapoRub To Prevent Flu

Flu Germs Are Breathed In.  
Inflamed Air Passages Make  
Ideal Breeding Grounds for  
These Germs.

### KEEP AIR PASSAGES OPEN

Wait a Little Vick's VapoRub in a  
Spoon Night and Morning and In-  
hale Vapors—Also Apply to the  
Nostrils Several Times a Day.  
Especially Just Before Being Ex-  
posed to Colds.

**Flu This Year is Milder**  
What we know very little more about  
the flu than we did last year—the  
germ itself has never been positively  
identified—still most authorities agree  
that the flu germs are breathed in. If  
the system is in good shape and the  
membrane or lining of the air pas-  
sages is in healthy condition—these  
germs are thrown off.

A good plan is to melt a little Vick's  
VapoRub in a spoon night and morn-  
ing, and inhale the vapors, also apply  
a little up the nostrils several times a  
day, especially just before being ex-  
posed to crowds.

### Treat All Colds Promptly

Above all, keep free from colds, as  
colds irritate the lining of the air  
passages and make them ideal breed-  
ing grounds for germs. Prompt use of  
Vick's VapoRub aids in preventing  
colds. For head colds, sore throat or  
hoarseness, rub Vick's well over the  
throat and chest and cover with a  
warm flannel cloth. For deep chest  
colds, severe sore throat or bronchitis,  
hot wet towels should first be applied  
to the throat, chest and back between  
the shoulder blades to open the pores.  
Then Vick's should be rubbed in over  
the parts until the skin is red—spread  
on thickly and covered with two  
thicknesses of hot flannel cloths. Leave  
the clothing loose around the neck, so  
the vapors, released by the body heat,  
may be freely inhaled.

These vapors, inhaled with each  
breath, carry the medication directly  
to the lungs and air passages. At the  
same time Vick's is absorbed through  
and stimulates the skin, thus aiding to  
relieve the congestion within.

### Use of External Treatment for Colds

Increasing  
Vick's VapoRub is the discovery of  
a North Carolina druggist who found  
how to combine in Salve form, the  
standard time tested remedies: Cam-  
phor—Menthol—Eucalyptus—Thyme,  
etc.—so that when the salve is ap-  
plied to the body heat, these ingredi-  
ents are liberated in the form of  
vapors.

Vicks is particularly recommended  
for children's croup or colds, since it  
is externally applied and therefore can  
be used freely and without the  
slightest harmful effects.

The best evidence of the value of  
Vicks is the steadily increasing num-  
ber of people who have been con-  
verted to the use of this "outside" treat-  
ment.

Beginning with the customers of a  
small retail drug store, the use of  
Vicks has grown year by year—state  
by state—until now more than 17  
million jars are used annually. And  
this in spite of the fact that Vicks  
is a new form of old remedies—folks  
in the North and West. Vicks  
can be had at all druggists in three  
sizes—3c, 6c or \$1.20.

## NO NEW CASES OF INFLUENZA FRIDAY

For the first time since the epidemic  
of influenza started in this city three  
weeks ago, no new cases were report-  
ed to the city health department on  
Friday. For the past three or four  
days there has been a decided decrease  
in the number of new cases reported  
from day to day until Friday not a  
single entry was made on the books.  
However, this does not mean that the  
epidemic is over for there may be  
with the change in weather, a fresh  
outbreak of the disease and it is with  
only strict adherence to precautionary  
rules that the disease may be entirely  
stamped out.

During the three weeks' run of the

### SHORE LINE TO CONTINUE OPERATIONS OF LEASED LINES

On the request of the Connecticut  
Co., the Shore Line Electric Railway  
Co., is to continue the operation of the  
New London trolley lines for an in-  
definite period. This permission was  
granted Friday by Judge John P. Kel-  
logg in the superior court in New Lon-  
don who passed an order approving  
of the extension of the agreement  
made by Robert W. Perkins, receiver  
of the Shore Line Electric Railway Co.,  
with the Connecticut Co., regarding the  
annulment of its lease of the local  
lines.

On December 19, 1911, Receiver  
Perkins made application to the su-  
perior court for permission to annul  
the 99 year lease of the New London  
trolley lines with the Connecticut Co.  
and the court passed an order termi-  
nating the lease and authorizing the  
delivery of the property to the  
Connecticut Co.

At the short calendar session Fri-  
day Judge Kellogg was asked to  
approve a modification of the order  
made by Judge Kellogg. He was asked  
to annul the lease of the Connecticut  
Co. Receiver Perkins stated that no account  
of the exigencies connected with the  
operation of the railway, the Con-  
necticut company finds difficult and  
practically impossible to take over  
the operation of the leased lines and  
requested the court to annul the lease  
and to continue the operation until one week  
after the Connecticut company notifi-  
es the receiver that its ready to  
take over the lines or until one week  
after the receiver notified the Con-  
necticut company of his unwillingness  
to continue the operation.

In his application Receiver Perkins  
states it as his belief that it is for  
the best interest of the receivership  
estate and the best interest of the  
public that the Shore Line Electric  
Railway Co. continue the operation of  
the New London lines as requested  
by the Connecticut company.

Judge Kellogg also approved an or-  
der allowing Receiver Perkins to con-  
tinue business of the company for  
four months from today.

Receiver Perkins filed his account  
as receiver for three months ending  
Dec. 31 showing a deficit for October  
of \$21,850.57, for November, \$3-  
\$71.37 and December \$4,455.08. The  
report showed cash on hand December  
\$41,250.06, cash receipts in December  
\$85,857.88 and cash disbursements for  
December of \$87,991.04.

### STATE MILK SUPPLY TO BE IMPROVED

A conference was held at the Cap-  
itol Thursday by representatives of  
the state department of health, state  
dairy and food commissioner, state  
commissioner on domestic animals, and  
county health officers, and milk and  
food inspectors from various cities, to  
discuss methods of providing a  
purer milk supply for the health of  
the public. It has been shown by  
statistics that impure milk leads to  
a high mortality particularly among  
infants.

It was agreed that the pasteuriza-  
tion of milk as done by certain Con-  
necticut men who are in the business  
for its sale in the city, is not one of  
the best, and steps will be  
taken to see that these men, if they  
are to pasteurize milk, do it right.  
Impure milk it was pointed out,  
at the conference, is secured from  
tubercular cows, and they are found  
mostly in barns that are not sani-  
tized. Inspectors from the state dairy  
and food commissioner's office make  
regular visits to farms in the state  
and in several instances have ordered  
changes toward better sanitation.

### LOUIS MABREY WRITES ABOUT THE SUNNY SOUTH

Louis Mabrey who is spending the  
winter at Deland, Florida, writes to  
Norwich friends that the city where  
for its state is considered one of the  
best in Florida to live in. It has  
the best water by actual test of  
99 per cent. pure. The city is sit-  
uated on the highest ground in the  
state, located in the heart of the fruit  
belt, 25 miles from the coast. The  
climate has been said that could be  
wished, clear and warm, 80 in the  
daytime and 60 at night.

There is a great variety of fruit  
on the market, many growers not pick-  
ing the price being so low on account  
of the scarcity of sugar, and the fruit  
has nothing on the ground. There  
are all kinds of vegetables and the  
price is very reasonable, strawberries  
being 60 cents a box. Mr. Mabrey  
states that he is enjoying the climate  
and is delighted with the south.

### SIMPLE FUNERAL SERVICES FOR HENRY B. ENDICOTT

Boston, Feb. 12.—Simple funeral  
services for Henry B. Endicott, who  
died last night, will be held Sunday  
afternoon at the home of Clarence W.  
Barron, whose son is the husband of  
Mr. Endicott's daughter, Rev. James  
H. H. Ropes of the Harvard Divi-  
nity School will conduct the service.  
Mr. Ropes was associated with  
Mr. Endicott on the state food ad-  
ministration during the war.

Among the honorary pallbearers, as  
announced tonight, will be Governor  
Knickerbocker, George F. Johnson, Mr.  
Endicott's partner in the firm of En-  
dicott, Johnson and Company; A.  
Lawrence Lowell, president of Har-  
vard University, and former Govern-  
or Samuel W. McCall.

### Sorrow for Miss Hogue's Death.

The afternoon correspondent of the  
Waterbury American, referring to the  
death of a native of Norwich, Miss  
Ellen Hogue, said: She moved to  
nature and a steadfast friend herself,  
she made many friends in Waterbury,  
as she had in New London.

French Honorary Diplomas to be presented Feb. 22

Beautifully engraved memorial di-  
plomas are to be presented to the  
members of the French Honorary Com-  
mission, through Robert O. Fletcher,  
Post No. 4, American Legion on  
Sunday afternoon, Feb. 22, at 8 o'clock.  
Sixteen of these diplomas have been  
received to date by the Post secretary.

Plans for the presentation of the  
memorial diplomas were discussed at  
the meeting of the French Honorary  
Commission, held in the State Armory on  
McKinley avenue and it was decided to  
leave the entire arrangements in  
charge of the following committee:  
John A. Cunningham, Anderson and  
Hardy House. The proposed plan is to  
announce the names of the recipients  
of speaking to be followed by the  
presentation of the diplomas. Fur-  
ther details will be announced as  
soon as the plans are completed.

The diplomas received to date are  
to be presented to the following:  
Mrs. Theodora Dappagallo, Nor-  
wich, Conn.
